

Central West BCU Partner, Business, and Stakeholder Update

Coronavirus – Local Update 14

30TH MARCH 2020

Current overview (subject to change or variation):

- There are a small number of reports across the country of key workers being victims of robbery. Whilst this is still a rare occurrence, it is prudent to remind all that, wherever possible, staff should be encouraged not to wear items of clothing that identifies their workplace or their work identification when travelling to or from work.
- New policing powers were provided to police forces on Thursday, 26 March. The MPS position is to Engage, Explain and Encourage. The additional powers announced by the government will make it an offence for non-essential premises to remain open, and for people to gather in groups.
- We will adopt a common sense, graduated response, with enforcement action only taking place where other less intrusive options have failed or are likely to do so in the circumstances.
- Since the Government has introduced stringent conditions the MPS policing style to help enforce these conditions should be graduated as follows:
 - Enhanced visibility in our communities
 - Engagement and encouragement to adhere to Government direction
 - Support to Local Authorities in enforcing premises closure
 - Issue of Fixed Penalty Notices where a power exists and is appropriate
 - Use of powers when necessary and as a last resort.
- We will continue to work around the clock to help keep Londoners safe and they can have confidence that we are planning to ensure we maintain critical services as the virus continues to spread.
- The Met, and London is extremely resilient. Our officers are, and will continue to be out on the streets and supporting communities. We are here to support people and to continue to perform our primary function – to protect lives and prevent crime wherever we can.
- The public can help us by familiarising themselves with the many different ways they can contact us in non-emergency situations, such as using our website. This will help free officers and call handlers to attend to those who need us the most.

Advice to stakeholders, organisations, and businesses in Central London

Please follow the advice issued by HM Government and Public Health England, found at [nhs.uk/coronavirus](https://www.nhs.uk/coronavirus).

As of 1500hrs, 30th March 2020 the advice is:

STAY AT HOME TO STOP CORONAVIRUS SPREADING

- **EVERYONE** must stay at home to help stop the spread of coronavirus.
- You should only leave the house for 1 of **4 reasons**:
 - **Shopping for basic** necessities, for example food and medicine, which must be as infrequent as possible
 - **One form of exercise a day**, for example a run, walk, or cycle – alone or with members of your household
 - **Any medical need or to provide care or to help a vulnerable person**
 - **Travelling to and from work**, but only where this absolutely cannot be done from home

Important

These 4 reasons are EXCEPTIONS – even when doing these activities, you should be minimising time spent outside of the home and ensuring you are 2 metres apart from anyone outside of your household.

If you need medical help for any reason, do not go to places like a GP surgery, pharmacy or hospital.

If you have symptoms of coronavirus (a high temperature or a new, continuous cough), use the [111 Coronavirus service](https://www.nhs.uk/111)
